

Club Points

Senior Club Points

- P01** The CV marathon committee may nominate selected classes in each winter series race for the awarding of senior club points. These selected classes will be published by Canoe Victoria Marathon on the www.vic.canoe.org.au. In this selection the marathon committee shall give consideration to class sizes, race location, and the need to promote all aspects of canoeing.
- P02** Points will be awarded for all club boat placing in each of the nominated classes and divisions as follows: Number of points awarded based on club boat placing, maximum points = number of competitors plus one
- 1st place maximum points
 - 2nd place maximum points minus 2
 - 3rd place maximum points minus 3
 - 4th place maximum points minus 4
 - etc. until an allocation of one point is reached
- P03** Paddlers earning place points will receive participation points. Participation points will be awarded to all paddlers who do not receive place points. Paddlers will receive participation points in accordance with the table set out by the Canoe Victoria Marathon executive. Should the participation points exceed the place points then the greater number will be awarded.
- P04** Only one boat from each club can gain points in a nominated class or division. e.g. if a club has two boats in a club points class only the first boat would qualify for club points unless of course that boat had a composite crew in which case point 7 would apply.
- P05** Points for crew boats will be awarded according to the number of competitors. e.g. 10 boat entry 20 competitors maximum points = 22 points for 1st place, 18 points for 2nd place and 16 points for 3rd... until an allocation of 2 points is reached.
- P06** Club boat placing will only be determined by the ranking of the individual boats which have gained points for their club e.g. if CLUB A had two boats in a class and came 1st and 2nd with 3rd going to CLUB B ,the 1st CLUB A boat would gain max points and max minus 3 would go to boat from CLUB B (3rd place) .
- P07** Points for composite crews will be calculated on a percentage basis. (50% for doubles and 25% each for K4 or C4)
- P08** Points will be calculated so that a club gains the maximum points.
- P09** All non senior paddlers racing in senior club point races and divisions will be considered to be racing for senior points and shall be eligible for junior points.

- P10** Paddlers must complete the full course to be eligible for club points.
- P11** Paddlers must be registered members of a club affiliated with Canoeing Victoria to be eligible to receive club points. (Clubs must pay their affiliation fees to CV and provide a list of members to CV Marathon Committee prior to the first race or their members will cease to be eligible for club points until these requirements are met. Furthermore, if these requirements are met at a later date there will be no back dating or recalculating of club points. The accumulation of club points will recommence with the next race.)
- P12** Participation points will be awarded (in addition to points listed above) for all paddlers who complete each winter series race.
- P13** Club points will be awarded in Winter Series races to all constituted classes. (4 boats or more)
- P14** A perpetual trophy will be awarded to the affiliated club with the highest senior club points at the presentation held during the Victorian Canoe Championships

Junior Club Points

- P15** All juniors racing in junior or divisional classes may be eligible for junior points. Points will be awarded in the same manner as they are for senior club points. Juniors racing in the divisional system as juniors and sub juniors will be placed in the combined finish order and awarded junior club points accordingly.

School Points

- P16** School points will be awarded to a school in accordance with:
- Constituted classes will gain full club points as described in the club points system
 - Participation points will in classes with sufficient competitors as per club points system
 - Paddlers in unconstituted classes will gain participation points only.
 - No weighting of schools will be applied in the calculating of the points for the Schools Trophy.
